

Specialist 'Walking' Excavator

WM PLANT HIRE
long reach excavators

...reaching out

All-terrain versatility in river – 4WD

Ability to lift itself over sensitive bank edges – low ground pressure flotation tyres

www.wmplanthire.com

Machine raised into 'high' configuration (can work in up to 2m water depth)

Machine lowered and set in 'wide' configuration (max reach 8.5m)

Machine lowered and wheels set in 'narrow' configuration (min width 2.5m)

Machine shown in the above positions for photos, but this specialist excavator can offer any permutation possible. Wheels (all wheel drive) can be raised, steered, lowered all independently.

Available with full EA specification with 360 degree rotate and tilt function on all attachments including:

| Grabs | Flails | Mowers | Weed cutting baskets | Tree shears | Breakers | Compactors | Profiling buckets | Rakes |
